

Redistricting Partners Draft Plans

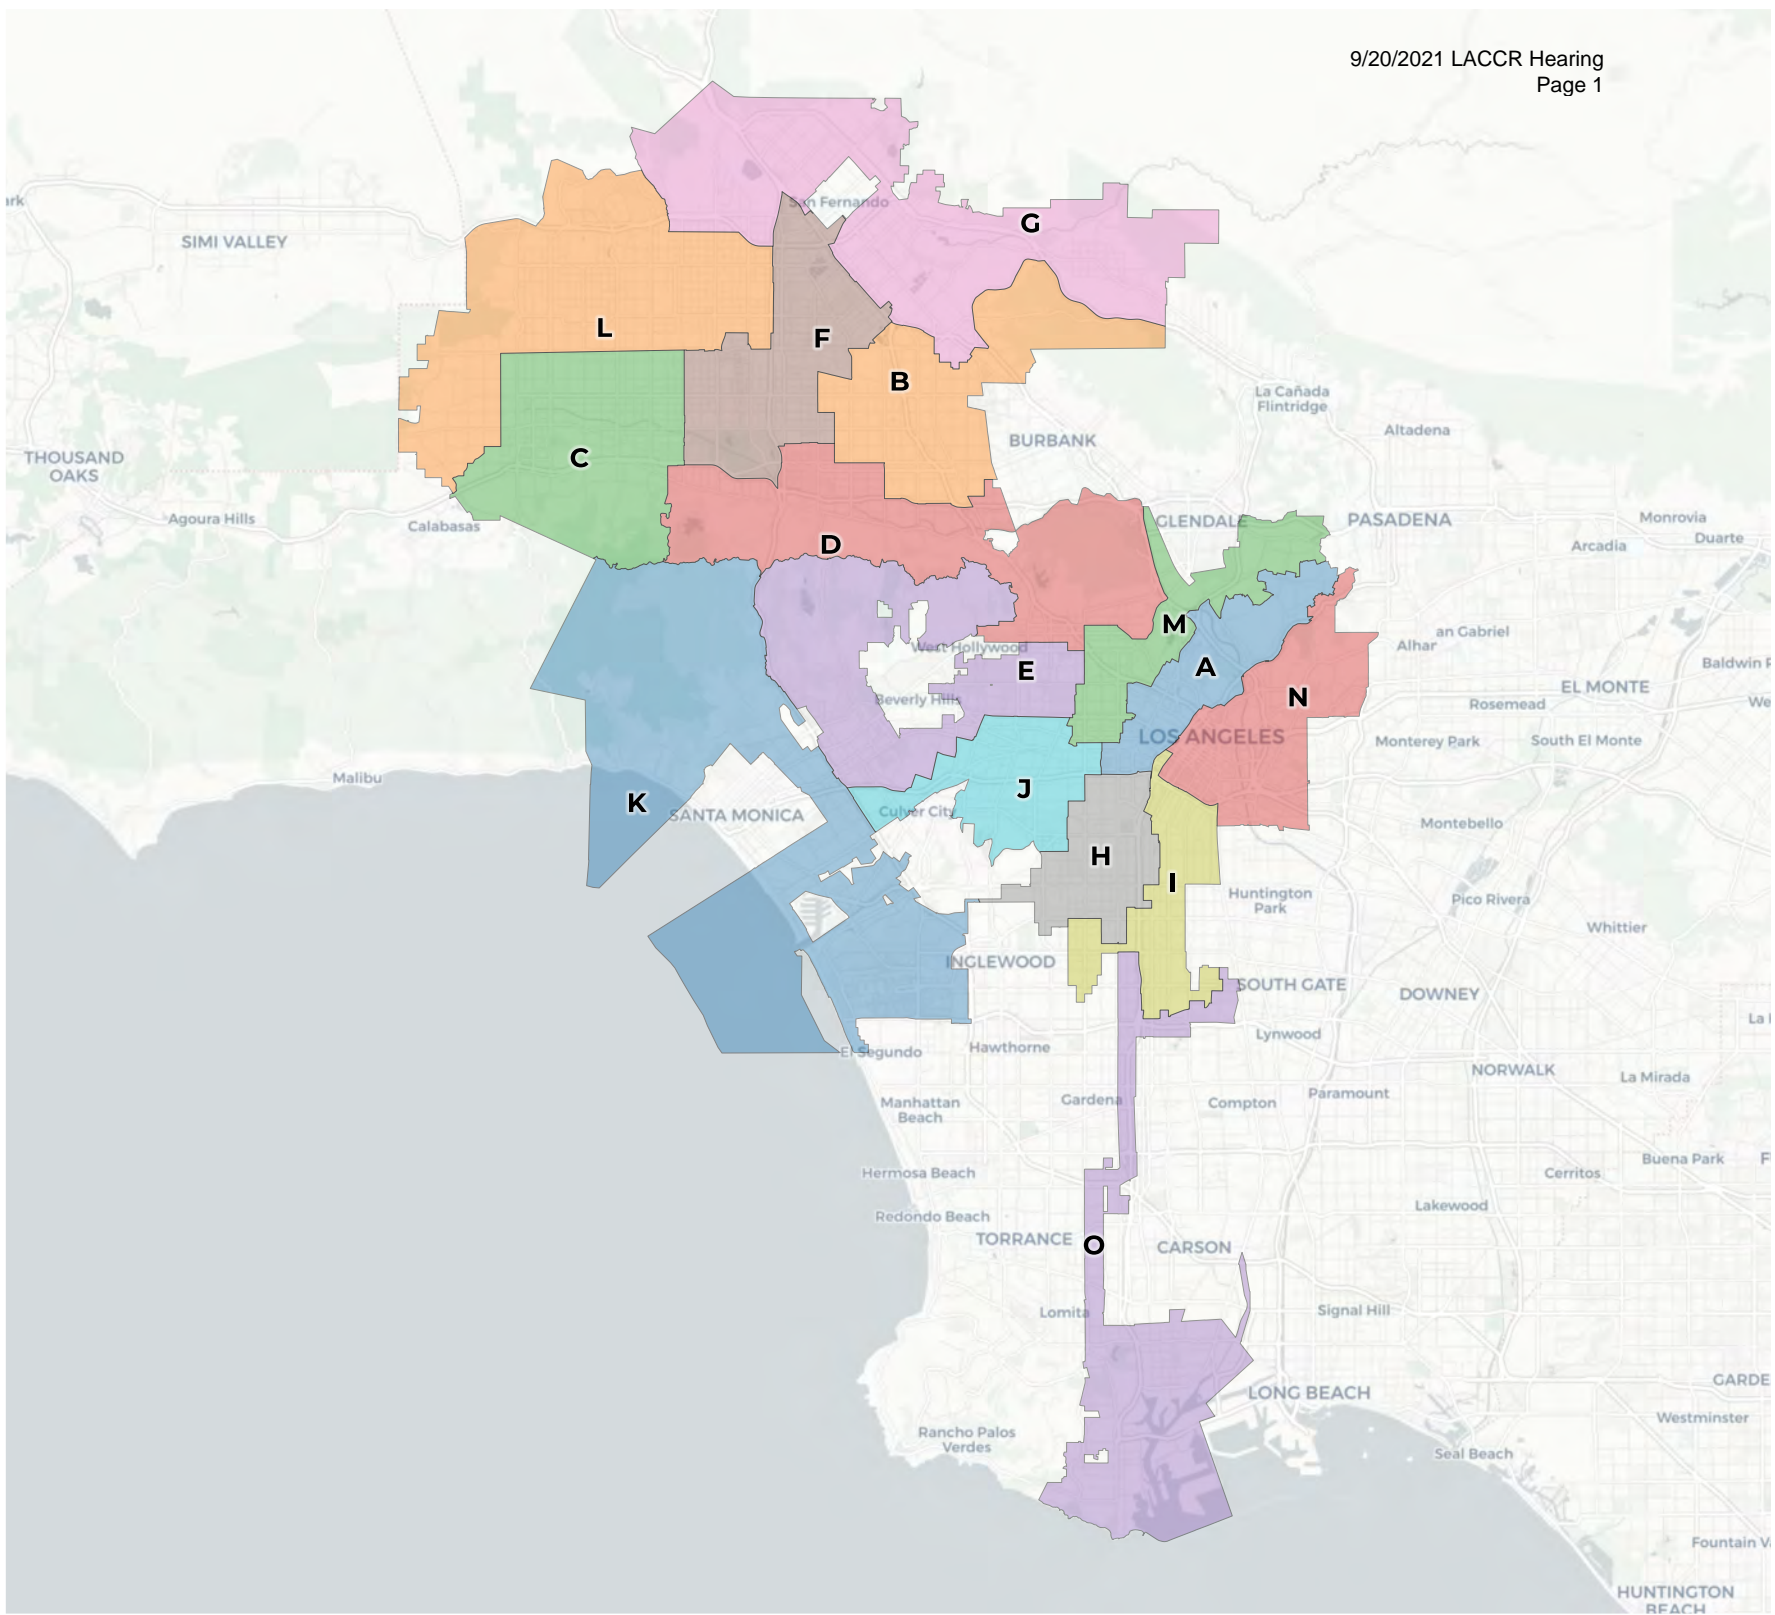

At the request of the commission we have created draft plans which are developed with the interregional configurations, and reflect some of the regional priorities expressed in public hearings.

- Starting point of these plans was the modified public submissions.
- These plans seek to balance regional preferences, interregional configurations, city charter and Voting Rights Act requirements.
- There has been an attempt to make these modular so the commission could request one of the draft plans, but replacing one of the regions with the structure from another draft plan or modified public submission using the same interregional configuration.
